Subject: CZARA Media Inquiry

Dennis/Dan: I spoke with Christine briefly yesterday about a Media call I received yesterday looking for an EPA "voice" to do a recorder interview about the CZARA situation in Oregon....after we spoke for a while, I recommended that the public radio reporter(Liam Morarity, formerly with KPLU, now with Jefferson County Public Radio in Ashland, OR) start with Michael Milstein & Will Stelle @ NOAA and then circle back with us to fill in the 319 mechanics and other gaps. He said that was a good idea and that he would be back in touch.

From the tone & timbre of the conversation, it sounds like his station and InvestigateWest (Robt. McLure & Co.)are teaming up to do a CZARA piece. I've alerted both Michael @ NOAA and Jennifer Flynt @ ODEQ to that fact. As of this afternoon, Michael had still not heard from the reporter.

I will keep you posted.
